

TYRE GALLERY

Last month we covered how to choose which specification of tyre best suits your needs. The next step is selecting a brand and a model. Words by Robert Pepper

This is Part 1 of a three-part series listing tyres for 4WDs for with rims 17-inch and greater. We've limited it to tyres that have an overall diameter of 33 inches (838mm) or less, so it's focused on touring off roaders. However, almost all the tyres listed here will be available for 16-inch rims too, and the more aggressive ones in larger diameters. The tread pattern varies from road to extreme, and some are passenger construction, others light-truck. Part 1 will have this introduction, part of the tyres to fit 17-inch rims, Part 2 will run 18-19-inch rims and Part 3 20-inch and above. Alongside each part will be a manufacturer listing so you know who to contact for what. But the first thing is to establish how to use all this information.

What's in the Guide

The first part of the guide is the Manufacturer Index, in alphabetical order, with each manufacturer's contact details and a list of tyres. The second part is a Tyre Matrix listing all the tyres and their specifications, sorted by rim size, then by overall diameter calculated from the tyre specifications, eg 265/65/17. The actual diameter may vary a little from this figure.

How to use the Guide

1. Determine what size and load rating fits your vehicle. To do this find the tyre placard; open the driver's door and look for a sign similar to the one in the photograph. Make a note of the permitted sizes and ratings. These are the sizes that can be legally fitted to your vehicle. Also note your rim size, which should be stamped on the rim.
2. Work out what other sizes may fit and are still legal.
3. Decide what tread pattern you want; road, all-terrain or mud.
4. Refer to the Tyre Matrix. Look up the size(s) you're interested in and the tread pattern, and see what's available.
5. Look at the Manufacturer Index for more information about the tyre,

plus a photograph, background on the manufacturer, and contact details for more information.

Notes

1. We have compiled this information in good faith from manufacturer representatives and product documentation. Products change, so please double-check everything before committing to a purchase.
2. Some tyre specifications and images are left blank as the manufacturer was unable to supply the information requested.
3. Some tyres not yet available are listed. These have been marked in the Availability column.

Fitting tips

Ensure new valves are fitted, preferably with metal caps. Specify whether the lettering should be on the inside or outside (if applicable), specify the pressure you want and check it afterwards. It is a good idea to have a full alignment carried out at the same time to maximise the life of the tyres. Brand new tyres take a little while to wear in so don't expect peak performance as soon as you drive out of the tyre shop. Make sure the correct nuts are used (especially when going from steel to alloy rims), and that your wheelbrace still fits the new nuts.

| BFGoodrich Tyres | |
|------------------------|--|
| Australian distributor | Michelin Australia Pty Ltd |
| Website(s) | www.bfgoodrich.com.au |
| Contact phone | 1300 306 757 |
| Tyre availability | Tyreplus, Bob Jane, JAXQuickfit and selected Independent retailers |
| All Terrain T/A KO |  Crush your way through the toughest terrains with BFGoodrich All-Terrain T/A KO tyres. |
| Long Trail T/A Tour |  The road never ends with the ALL NEW Long Trail T/A TOUR - on road or off-road you won't be compromised. |
| Mud Terrain T/A KM2 |  Go way out of bounds and still keep on playing. |

| Bridgestone Australia Ltd | |
|---------------------------|--|
| Australian distributor | Australian Manufacturer |
| Website(s) | www.bridgestone.com.au |
| Contact phone | 08 82060200 |
| Tyre availability | Numerous retailers |
| D694 LT | Deeper tread, heavier steel belt cords and nylon cap & layer all ensure better resistance to puncturing. Thicker undertread, deeper tread and proven compound increase cut/chip resistance and wear life. |
| D694 |  Technologically superior tyre with exceptional off road capabilities and uncompromising on road comfort. |
| D683 |  Primarily designed to provide a quiet and comfortable ride for SUV vehicles. It offers excellent handling on wet and dry roads, high speed stability and manoeuvrability, and long wear life. |
| Dueler H/P |  Looks, luxury and performance. High silica content helps the tyre mould to the surface of the road and improves wet grip, while the 'Comprehensive Tyre Design Method' ensures an even smoother, quieter ride. |
| Dueler H/P N1 |  OE on Porsche Cayenne. High silica content helps the tyre mould to the surface of the road and improves wet grip, while the 'Comprehensive Tyre Design Method' ensures an even smoother, quieter ride. |

| | |
|---------------------------|--|
| Dueler H/P RFT |  OE on BMW X5. Run Flat Tyre. High silica content helps the tyre mould to the surface of the road and improves wet grip, while the 'Comprehensive Tyre Design Method' ensures an even smoother, quieter ride. |
| Dueler H/P N0 |  OE on Porsche Cayenne. High silica content helps the tyre mould to the surface of the road and improves wet grip, while the 'Comprehensive Tyre Design Method' ensures an even smoother, quieter ride. |
| D693 | OE on Nissan Patrol. |
| D684 | OE on Ford Ranger. |
| D840 |  D840 is a highway terrain pattern selected as original equipment on modern 4WD vehicles. |
| D687 | OE on Toyota Rav4. |
| D470 | OE on Honda CR-V. |
| D400 | OE on Nissan Pathfinder. |
| D400 RFT | OE on BMW X5. Run Flat Tyre. |
| D33 | OE on Lexus RX350. |
| Firestone Destination H/T |  Highway terrain tyre featuring 2 polyester body plies and jointless cap layer for improved vehicle stability and better resistance to irregular wear. |

| Continental Tyres | |
|------------------------|--|
| Australian distributor | Tyres4U |
| Website(s) | www.continentaltyres.com.au |
| Contact phone | 1300 13 63 43 |
| Tyre availability | Independents + some Bob Jane T-Marts & some Jax Quickfit Tyre stores |
| 4x4Contact |  Original equipment for Land Rover, Mercedes, Renault. |
| 4x4SportContact |  Original equipment for Porsche Cayenne, Range Rover, includes rim protector. |
| CrossContact AT |  Wear resistant tread, smooth and quiet. |
| CrossContact LX |  Precise steering response, good aquaplane resistance, smooth and quiet. |
| CrossContact UHP |  Ultra High Performance. Original equipment for Land Rover, Volkswagen, Mercedes, Audi. |

| Cooper Tyre & Rubber Company | |
|------------------------------|---|
| Australian distributor | Exclusive Tyre Distributors (QLD, VIC, TAS & WA); National Tyre Wholesalers (NSW & ACT); Cotton Tyre Service (SA & NT) |
| Website(s) | www.coopertires.com.au |
| Contact phone | 1300 266 737 |
| Tyre availability | Only selected Authorised Cooper Tyres Dealers - call to find your closest dealer. |
| ATR |  All-Terrain, Reinforced. 70% road 30% dirt and mud. Solid centre rib for faster steering response. |
| CTS |  90% Road and Sand, 10% Dirt and Mud. Premium luxury touring tyre for high levels of wet traction and ride comfort, suited for late model 4WDs, silica compound. |
| H/T Plus |  90% Road and Sand, 10% Dirt and Mud. A quiet, comfortable ride, fast steering response with a solid centre rib, deep tread. |
| HT |  90% Road and Sand, 10% Dirt and Mud. Quiet, wet grip, good sand tyre, good handling. |
| LTZ |  70% Road and Sand, 30% Dirt and Mud. Hybrid sports truck and all-terrain. Rim protector. |
| S/T-C |  60% Road and Sand, 40% Dirt and Mud. The Outback Dirt Road Tyre, tailor-made for Australian conditions, for heavy loads on outback roads. |
| ST |  60% Road and Sand, 40% Dirt and Mud. Specifically designed for coarse, rocky terrain with increased cut, chip and lug wear resistance. |
| STT |  20% Road and Sand, 80% Dirt and Mud. Amor-Tek 3ply carcass, deep sidewall lugs, cut and tear resistant compound. |
| XST |  90% Road and Sand, 10% Dit and Mud. Asymmetric tread, premium sport truck tyre. |
| XSTa |  100% Road and Sand. Directional tread for extreme braking and handling, speed stability, very quiet. |
